

01.12.2015

Małopolska Agglomeration Card is launched!

On December 1, 2015 we have launched the Małopolska Agglomeration Card system. At the same time we commenced the information campaign on Krakow TV, Krakow Radio, and the most popular websites and social media. The information about MKA project has also been published on buses and trams of the City Transport Company in Krakow.

The TV advertisement, broadcast before the main issue of Kronika Krakowska, is published on our YouTube channel.

We encourage you to check the public transport solutions for Małopolskie Province offered by the MKA system. All details on MKA project are available on our [website](#).

A [virtual consultant](#) will answer the difficult questions pertaining to the system.
