The first Park&Ride lot in MKA system

The first Park&Ride parking lot managed by the MKA system was opened in Tarnow. Starting from December 14, 2015, 340 parking spaces can be booked by the MKA system users with current railway services purchased in our system. For those of you, who only occasionally use the railway transport, the parking lot offers free spaces depending on the number of bookings made in MKA system.
