01.12.2015

iMKA application is available now

Mobile application iMKA is already available for download. We encourage you to download the application and check its features. Starting from December 14, 2015, the MKA portal will allow for user registration and authorization of iMKA application. Once the application has been authorized, it enables you to buy services available in the MKA system. Find out more about iMKA application and authorization methods.
